**HI-SPEED COPYING  
 AND PRINTING**

For printing, we can accept ready prepared artwork in most graphic format files but please check the format type with us to ensure we can use it. Preferred artwork for On-body printing is an uncompressed tiff, at 300 dpi, 12cm square *without* the hole cut out in the middle. For large print runs we will always print a sample to ensure it is correct.

All our copies come without packaging, please see below for selection of cases.

A set up charge of £15.00 is payable for each job where a file is supplied

**Please ensure that your master is correct before duplication**
